Dear All,

Last year unusual challenges associated with the COVID-19 pandemic have prevented many meetings to take place, others have changed their structure and tried to adapt to the new circumstances by web-streaming technologies.

MAORI Symposium played an important role on the international scene for several years

and I'm very glad to announce the 7th MAORI Symposium on Complex Diseases of Thoracic and Thoraco- Abdominal Aorta at "Magna Graecia" University of Catanzaro from 22 to 23 June 2021.

The original structure will remain: a two-day Symposium including a perfusion and a nursing programs and 5 scientific sessions dedicated to Lectures on all aspects of aortic pathologies, aortic valve, ascending aorta, arch and thoraco-abdominal aorta, dissection, prevention and treatment of infection performed by Italian and International experts.

The focus and spirit of MAORI Symposium will be unchanged. The format will be fully webstreamed worldwide stimulating high-level panel discussions without the limitations of full remote connections.

We look forward to another exciting and innovative MAORI Symposium at "Magna Graecia" University of Catanzaro and welcome you all to register, attend, and take part in discussions.

Sincerely yours,

Pasquale Mastroroberto
